This show is dedicated to Yuri's Night, a global celebration of human achievement. April 12, 1961 Yuri Gagarin was the first human from this planet in space, and in 1981 the first Space Shuttle flew. This year were almost 200 parties, in 63 countries, on 7 continents.

Thanks to all the artists, promoters and labels who make sure we get all the latest creations to share with our worthy listeners. It is always a pleasure for us to do so.

Yours faithfully,
Kitty & Creek
